

FACILITY HIGHLIGHTS

To continually improve our services, we regularly participate in a national survey program twice a year that measures performance at over 3,000 facilities, like ours, across the United States.

In the most recent survey by the National Research Corporation conducted in August 2015, here are just a few reasons why you should feel confident about choosing **Stone County Nursing and Rehabilitation Center** for your family members or patients.

Superior Patient Satisfaction

Stone County area families and residents said they were 95 percent (95%) satisfied with our care and services.

Some of the top reasons for selecting Stone County Nursing and Rehabilitation Center were its convenient location and good reputation.

Here's What Our Patient Families Had to Say

In the most recent survey conducted in August 2015, here are some of our families' comments:

"The staff has a strong commitment to updating families on their loved ones' plan of care."

"They have the best Activity Director I have ever met. She is so good with patients and their families."

"They offer good customer service, serve great food and genuinely care about the residents."
